1.188
 Kickstarter backers

Let's restore nature before it's too late!

Water, time, earth, air and sun / these are the elements that you will use to get cards from the plant and fungi kingdom.

But be aware! there are also natural disaster cards. Luckily we have extra abilities such as changing cards, extra cards and passing a card to another player.

With the right combination of plants you will get animals, with the right combination of animals you will achieve biome tiles, and hopefully, you will rewild the world together.

- Cooperative Deck Building game
- 6 Difficulty Levels
- Box size: 224 x 170 x 52 mm
- Components: 170 Cards, 14 Tiles, 12 Tokens, 16 Markers, Scorepad up to 100 games

GAMES

We Can Play

A Dynamic Card Game in which we will discover great stories of Women Who Changed The World.

The aim of the game is to arrange the cards chronologically.

You can push your luck at the risk of losing cards.

The player who first manages to form a timeline of seven cards, wins the game.

Have fun, learn more and get inspired with We Can Play!
